## Testimonials

Our teachers show us all of these different career paths. They are trying to find something for all of us, that we actually want to do. Something worth turning up for.

- Kenzie, 16 - Te Ara Student

They are more than just teachers, we can talk to them as friends, and they care. The plus side is we can come here and just have a conversation, its makes it easier to be here.

## Who we are

We are a school based around whanau principles of around 20 students, with 2 ministry-funded staff, and are focused on meeting the individual needs of our secondary-aged students. We have been around for over 25 years, so have well-established roots in the community, know what we are doing and have generous sponsors that partially fund our school.

## Is Te Ara for you?

Mainstream schooling tends to not suit every student's needs or cater for certain social or behavioural barriers. We provide more focused support and equip students with confidence and skills to move forward on their learning paths, (whether it be successfully returning to mainstream education or moving on to further training).

We help students work at their own pace to recognise and foster their individual strengths in order to set goals in accordance with their individualised learning plans, all while following the curriculum provided by Te Kura (The Correspondence School) and aiming for NCEA credits.

## Our Sponsors

*Te Ara has always been appreciative of our financial support and has always used it carefully, never taking it for granted, and giving regular feedback on their plans and initiatives. The dedication, enthusiasm, motivation, competencies, and knowledge of the staff are inspiring.*

*- Claire Cohen, Rotary club of Wellington central.*

*Our donor was delighted to be able to help fund an art tutor from Te Ara. We help people give to what they care about and the support Te Ara was a wonderful reflection of this.*

*- Janie, The Nikau Foundation.*
