

*Same education,
Different path.*

Testimonials

Students who spoke with ERO expressed confidence in their future pathways... Attendance rates are high. Te Ara provides an environment that successfully supports students' re-engagement in learning."

2012 Education review office report.

They are more than just teachers, we can talk to them as friends, and they care. The plus side is we can come here and just have a conversation, its makes it easier to be here.

- Kenzie, 16 - Te Ara Student

Who we are

Te Ara is an educational centre with approximately 20 students and 5 staff, focused on meeting the individual needs of secondary-aged students.

Mainstream schooling tends to not suit every student's needs or cater for certain social or behavioural barriers.

Te Ara aims to provide a more focused and supportive learning environment and equip students with the confidence and skills to move forward on their learning paths, (whether it be successfully returning to mainstream education, moving on to further training, or moving into the work place); all in a supportive, whanau orientated and culturally responsive environment.

What we Do

We help students recognise and foster their individual strengths in order to set goals in accordance with their individualised learning plans, all while adhering to the NCEA curriculum provided by Te Kura (The Correspondence School).

We have been around for over 25 years, so have well-established roots in the community, know what we are doing and have generous sponsors that we rely on to partially fund our school.

Funding

Although we receive a small grant from the Ministry of Education, we rely on and annually seek substantial funding from our sponsors for many things that are integral to the supportive and educational environment that we provide, one example being youth workers wages.

Our Sponsors

Te Ara has always been appreciative of our financial support and has always used it carefully, never taking it for granted, and giving regular feedback on their plans and initiatives. The dedication, enthusiasm, motivation, competencies, and knowledge of the staff are inspiring.

- Claire Cohen, Rotary club of Wellington central.

Our donor was delighted to be able to help fund an art tutor from Te Ara. We help people give to what they care about and the support to Te Ara was a wonderful reflection of this.

- Janie, The Nikau Foundation.
