

*Same education,
Different path.*

Testimonials

They are more than just teachers, we can talk to them as friends, and they care. The plus side is we can come here and just have a conversation, its makes it easier to be here.

- Parent

It's given him more time to mature, earning credits towards NCEA. A feeling of acceptance and a continuing interest in his education. I believe that Te Ara has been a saving grace at a difficult time in my son's life.

Kenzie, 16 - Te Ara student

Get in touch

If your child attends one of our 10 linked schools, get in touch with the dean or guidance counsellor to find out more about our referral process and arrange a visit, where the student can decide whether we are the right fit for them.

Who we are

We are a school based on whanau principles of around 20 students and two ministry-funded staff who are focused on meeting the Individual needs of our secondary-aged students. We have been around for over 25 years, so have well established roots in the community, know what we are doing and have generous sponsors that partially fund our school.

What we Do

Mainstream schooling tends to not suit every student's needs or cater for certain social or behavioural barriers. We provide more focused support and equip students with confidence and skills to move forward on their learning paths, (whether it be successfully returning to mainstream education or moving on to further training).

We help students recognise and foster their individual strengths in order to set goals in accordance with their individualised learning plans, all while adhering to the NCEA curriculum provided by Te Kura (The Correspondence School). All in a supportive, whanau-orientated and culturally responsive environment, where our students thrive.

Our Sponsors

Te Ara has always been appreciative of our financial support and has always used it carefully, never taking it for granted, and giving regular feedback on their plans and initiatives. The dedication, enthusiasm, motivation, competencies, and knowledge of the staff are inspiring.

- Claire Cohen, Rotary club of Wellington central.

Our donor was delighted to be able to help fund an art tutor from Te Ara. We help people give to what they care about and the support to the Centre was a wonderful reflection of this.

- Janie, The Nikau Foundation.
